OCCUPATIONAL MARKET COMMENTARY

Several national and international companies have established themselves within the Chichester district to benefit from the employment profile and lifestyle attractions of the City and surrounding area. Chichester is the home of Rolls Royce whose 600,000 sq ft worldwide headquarters and production facility is located at Goodwood, a short drive from the subject premises.

The property is a mix of E class, warehouse and healthcare occupiers. The new E Class has been embraced by occupiers attracted to the scheme which includes early years education, vets, and laboratory businesses. We have therefore seen with this property and generally in the Chichester area a very stable environment for occupational lettings.

We calculate that 81% of the floor area at Vinnetrow Business Park is from non-office users either being E class or B8 use.

There is currently a Low vacancy rate (offices) within the Chichester District area of 4.6% with a typical take up at around 30/40,000 sqft. There are no new planned schemes forthcoming to challenge this stable position. Office/E Class scheme rents achieved have ranged from circa £14 psf up to £21.50 per sq ft along the western end of the A27 corridor. The subject premises ERV sits comfortably at circa £16/20 psf depending on the suites or building.

The Work From Home (WFH) culture has not significantly affected occupation in the area and it is notable that more businesses are requiring attendance in the work space. We would further state that as the majority of the floor space at the subject premises is from a variety of different user types that this asset is insulated from the WFH culture.
